

Unit Logistic-Center

«From order entry through warehousing, picking and packaging to dispatch to your customers ? this is the range of expertise we have to offer. »

Do you have storage problems? Do you need pickers and dispatchers or would you prefer to entrust your entire logistics chain to professionals? If so, you have come to the right address. To allow you to concentrate on your core competences, we attend to all warehousing and dispatch tasks. In addition to our full service offerings, we adapt our services to match customer requirements.

Dispatch Warehouse/Goods Fulfilment

In the field of warehouse logistics we offer everything up to and including full service: order processing, call centre, goods delivery, returns processing, invoicing and payment reminders via our in-house ERP system. Your products are dispatched reliably at the right time to the right destination, with a guarantee if desired! Our customers' goods are in the very best hands from their arrival on our premises until they reach the recipients.

Co-Packing Service

Packing and packaging of products and displays. Together with contract carriers and package services, we dispatch your products by the stipulated deadline to the desired sales locations.

Lettershop

We adapt your mailings to the right format. We cut, fold and glue large and small mailings, place them in envelopes by machine or by hand and guarantee they are mailed by the agreed deadline.

Personalisation

When the quality of small to medium-sized print runs has to meet the highest quality standards, we use our single-sheet laser printer. We can laser print one-sided or double-sided black or colour A5 to A3 formats.

Film Wrapping

We film- and shrink-wrap trade journals, catalogues, brochures and mailings. Supplements can also be inserted or added on.

Packaging

Anything that cannot be done by machine, we do by hand.

- Production of all kinds of gift wrapping
- Filling and packaging work
- Production of presentation samples
- Packaging of special mailings
- Staging of competitions
- Labelling for products

Packaging Material

We have a wide range of packaging materials in stock to ensure the smooth, punctual dispatch of your products. Furthermore, we are happy to organise customised packaging for you.
